

Inputs for 3rd Public Draft of PROPOSED INPUT TO CSD 18 AND 19 ON A 10 YEAR FRAMEWORK OF PROGRAMMES ON SUSTAINABLE CONSUMPTION AND PRODUCTION (10YFP ON SCP)

Provided by Laksmi Dhewanthi

Ministry of Environment of Republic of Indonesia

1. Page 4: Thematic Cluster

Add some other significant thematic cluster, such as: energy, water (clean water), etc.

2. Page 6: The Vision

In defining the SCP, it is needed to also emphasize or at least acknowledge that SCP is a continuous improvement process, rather than a set of targets of a process.

3. Page 8: Main Functions

Among main functions of SCP, there is an awareness raising function. It should not only to raise people' awareness, moreover, it should be to educate and to empower people. Thus, people will be able to demand and strongly drive a change toward a sustainable consumption and production pattern.

4. Page 9: Building the Programmes

For a purpose of having greater understanding on the 10-Y FP SCP programme, the way to outline "Building the Programme" need to be clustered into, for example:

- Policy and Regulatory Framework;
- Market Creation/market driver;
- Technology and R&D support;
- Values and Lifestyles;
- Finance and Trade measurement., etc

5. Page 11 Diagram 1

Following is a Proposed diagram of 10-Year Framework of Programmes on SCP
